WILDWOOD RECREATIONAL VILLAGE  
C/O CIRACONNECT  
P.O. Box 702348  
DALLAS, TX 75370-2348

Dear Homeowner,

In effort to continue to improve system reliability and our ability to respond to outages efficiently, IREA has contracted with Sundance Power Pole Inspections, Inc. (Sundance PPI) to inventory our overhead equipment and facilities.

This effort will be spread across the entire IREA service territory and is expected to be completed between now and December 31, 2016. In order to complete this work, the crews will require access to all IREA poles and equipment and may use ATV's in some areas.

Sundance PPI crews will utilize vehicles with "IREA Contractor" magnets and will be wearing safety shirts and or vests with the Sundance PPI logo.

If you have questions or concerns related to this project, please feel free to contact Jim Westfall at (719-695-3301).

Thank you for your patience and cooperation in helping us complete this project.

Sincerely,  
INTERMOUNTAIN RURAL ELECTRIC ASSOCIATION

Alex J. Méndez  
Distribution Operations Manager
